MAXY Academy
Hackathon Batch 25.

SECTION 01

THE AUTONOMOUS PODCAST NETWORK

Enterprise-Grade Audio Production:
Autonomous Flow, Limitless Scale

Hambatan Skalabilitas Audio Enterprise

Mengapa produksi tradisional menjadi bottleneck bagi pertumbuhan bisnis Anda.

Inefisiensi Waktu

Siklus manual memakan waktu 3-5 hari, menghambat responsivitas terhadap tren.

Biaya Tinggi

Beban operasional ~Rp 5.000.000 per episode secara signifikan menekan margin ROI.

Batasan Skala

Mustahil meningkatkan volume produksi massal tanpa mengorbankan integritas riset audiens.

Mengubah Produksi Audio Menjadi Aset Skalabel

Orkestrasi end-to-end dari riset hingga distribusi tanpa hambatan manual.

Sistem AI Showrunner mengorkestrasi alur kerja komprehensif dari riset, naskah, hingga distribusi.

Menghapus bottleneck infrastruktur manual, membuka jalan bagi skalabilitas media enterprise tanpa batas.

Memastikan produksi massal yang konsisten, berstandar studio, dengan pencapaian ROI yang optimal.

THE SOLUTION

Orkestrasi Multi-Agent untuk Produksi Audio Otonom

Mengelola seluruh siklus produksi, tanpa intervensi manual melalui spesialisasi AI.

Agent 1 (Qwen)

Mengeksekusi riset mendalam berbasis data faktual dengan tingkat akurasi tinggi.

Agent 2 (Agnes AI)

Menulis naskah dialog natural dengan fidelitas emosional manusiawi yang autentik.

Agent 4 (Metadata)

Mengoptimalkan SEO secara otomatis dan menyisipkan iklan strategis secara kontekstual.

Arsitektur AI yang Stabil dan Terverifikasi

Menghilangkan risiko halusinasi dan kegagalan sistem melalui rekayasa prompt tingkat lanjut.

Strict Schema Enforcement

Mencegah kegagalan parsing secara mutlak pada seluruh pipeline produksi.

```
{  
  "type": "audio_segment",  
  "validated": true,  
  "metadata": {  
    "timestamp": "2023-10-27T18:09:00Z",  
    "schema_version": "1.2.3"  
  }  
}
```

Few-Shot Prompting

Memastikan distribusi slang natural untuk menjaga autentisitas emosional percakapan.

"emotion": "shocked"

Chain-of-Thought

Memaksa verifikasi fakta logis untuk mencegah halusinasi data statistik.

Integritas Riset & Autentisitas Emosional

Bagaimana parameter ketat menghasilkan konten bernyawa yang terbebas dari kesalahan faktual.

Agent 1: Qwen

Integritas Fakta

- Wajib menyertakan 'source_context' dan 'reliability_score'.
- Instruksi ketat: Jika tidak ada data, tulis: Data tidak tersedia.

Agent 2: Agnes AI

Fidelitas Emosi

- Distribusi slang maksimal 20% (mencegah kesan dipaksakan).
- Pemetaan emosi absolut (excited, calm, shocked, dll) yang langsung diterjemahkan oleh ElevenLabs/FFmpeg.

Otomatisasi Distribusi dan Discoverability Platform

Strategi SEO komprehensif tanpa intervensi manual.

Context-Aware Ad Insertion (DAI)

Monetisasi otomatis melalui pemahaman semantik naskah audio.

Sistem yang Belajar dari Data Pendengar

Arsitektur umpan balik untuk peningkatan retensi organik secara berkelanjutan.

Data Collection

Menangkap drop-off rate dari API platform audio (misal: pendengar keluar di menit ke-5).

Analysis

AI mendeteksi anomali (Host A berbicara terlalu monoton).

Prompt Auto-Tuning

Sistem mengkalibrasi instruksi secara instan ("Tambahkan interupsi dari Host_B setiap 45 detik").

Continuous Loop

Kualitas konten meningkat secara organik tanpa intervensi manusia.

Efisiensi Operasional Terbukti: Hemat 99,5%

Analisis perbandingan biaya produksi per episode berdasar *unit economics* API komputasi.

	Manual/Manusia	VoxFlow AI
Riset & Naskah	Rp 1.500.000	Rp 5.000 (Qwen)
Talent/Host	Rp 2.000.000	Rp 15.000 (ElevenLabs)
Audio Engineer	Rp 1.000.000	Rp 2.000 (FFmpeg)
SEO & Distribusi	Rp 500.000	Rp 1.000 (API)
Total: ~Rp 5.000.000 Waktu: 3-5 Hari		 Total: ~Rp 23.000  Waktu: < 15 Menit

Mengubah beban infrastruktur menjadi keuntungan kompetitif yang terukur secara presisi.

Solusi Komprehensif untuk Segmen Enterprise

Didukung oleh Otonomi Terkelola (Managed Autonomy) yang memastikan standar studio massal secara aman.

Media Companies (Detik, Kompas, IDN)

Mengubah artikel berita harian menjadi Audio News otomatis untuk monetisasi paralel.

Marketing Agencies

Content repurposing dan pembuatan branded podcast massal secara simultan untuk ratusan klien.

Enterprise / HR

Transformasi dokumen PDF/SOP internal menjadi podcast training karyawan. (Data diproses via Dedicated Server, isolasi 100%).

Identitas Brand: Mission-Critical Infrastructure

Studio-Grade Audio. Scaled by AI.

CORE VALUES & PERSONALITY

Trust & Authority

Infrastruktur AI tingkat enterprise, bukan sekadar aplikasi konsumen.

Studio-Grade Reliability

Kualitas output konsisten dan siap siar (broadcast-ready).

Managed Autonomy

Operasi independen di bawah kendali manajerial yang ketat.

SECTION 02

VISUAL IDENTITY

Color System, Typography & Brand Guidelines

CORE COLOR PALETTE

Primary Colors

● Deep Blue

HEX: #0E3A8A | RGB: 14, 58, 138
Meaning: Trust, Technology, Professional

● Purple

HEX: #7B3FE4 | RGB: 123, 63, 228
Meaning: Creativity, Innovation, Artificial Intelligence

Neutral Colors

● Dark Gray

HEX: #333333 | RGB: 51, 51, 51 |
Meaning: Balance, Stability

● Light Gray

HEX: #F5F5F5 | RGB: 245, 245, 245 |
Meaning: Clean, Minimal, Soft

● White

HEX: #FFFFFF | RGB: 255, 255, 255 |
Meaning: Simplicity, Clarity

COLOR USAGE PROPORTIONS (60-30-10 Rule)

Implementing brand colors for balanced, professional interfaces.

60% Primary Color (Deep Blue)

Application: Main backgrounds, large structural elements, primary branding.

30% Secondary Color (Purple)

Application: Highlights, primary buttons, active icons, visual accents.

10% Neutral Color (Gray)

Application: Typography, subtle borders, supporting backgrounds, negative space framing.

The Core Gradient: Represents the bridge between AI innovation and modern aesthetics.

Primary Gradient

Used for high-priority UI elements like primary call-to-action buttons, highlights, and crucial indicators.

Button Example

Secondary Gradient

Used with lower opacity for dynamic backgrounds, custom illustrations, and subtle design decorations.

TYPOGRAPHY SYSTEM

Visual Hierarchy and Usage

Aa

Heading Font: Poppins Bold

**ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890**

Application: Main titles, hero text, primary subheadings.
Commands attention and establishes hierarchy.

Aa

Sub-heading Font: Poppins SemiBold

**ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890**

Application: Secondary titles, section breakers, content emphasis.

Aa

Body Font: Poppins Regular

**ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890**

Application: Paragraphs, descriptions, standard UI components.
Ensures maximum legibility.

 **Note:** Use maximum 2-3 font variations to maintain consistency and readability.

ICONOGRAPHY STYLE

Style: Modern, Simple,
Outline + Filled

Principles:

- Simple and easy to understand
- Consistent stroke weight
- Strictly rounded corners
- Utilizing brand colors exclusively

AI & Technology:

Podcast & Audio:

Content Creation:

Workflow & Automation:

Publishing & Sharing:

User Interface:

IMAGERY & VISUAL STYLE

Overall Style: Modern, Clean, Futuristic, and Technological

SECTION 03

THE INSTAGRAM PLAYBOOK

30-Day Execution Strategy: Formats, Storyline & KPI Targets

Instagram Content Strategy Overview

Campaign Duration

- 30 Days Strict Cadence
- 1 Post per day (30 Main Posts total)

Platform Target

- Instagram Exclusive (@voxflow.ai)

Reels (50%)

Carousels (50%)

Format Rotation

- **Reels (50%):** Optimized for high-reach algorithm discovery & rapid feature demos.
- **Carousels (50%):** Optimized for deep educational value & algorithm-boosting Saves.

Core Objective

- Increase Lead Inquiries
- Drive Brand Awareness through AI podcast automation education.

Instagram Funnel Strategy (3 Phases)

Phase 1: TOFU - Top of Funnel (Days 1-10)

 **Goal: Awareness & Engagement**

Focus

Capturing attention, introducing the brand, identifying core pain points.

Content Topics

Beginner tips, podcasting struggles, entry-level feature demos (AI Voice, Auto Subtitle).

Phase 2: MOFU - Middle of Funnel (Days 11-20)

Goal: Consideration & Trust Building

Focus

Establishing authority and proving product superiority.

Content Topics

Manual vs AI workflow comparison, deep-dive tutorials, FAQ, Behind the Scenes, Creator Spotlight.

Phase 3: BOFU - Bottom of Funnel (Days 21-30)

Goal: Conversion & Action

Focus

Triggering decisive user action and sign-ups.

Content Topics

Lead Magnet (Free Templates), Niche Use Cases (Education), Success Stories, Founder Story, Product Launch, Direct CTAs.

Instagram Content Formats & Storyline Formula

Consistent Narrative Structure (All Content):

“

Hook Pattern:

Have you ever thought about [topic]?

”

“

Call to Action (CTA):

Follow @VoxFlowAI and click the link in bio.

”

“

Universal Caption Template:

[Content Title] 🚀 From idea to professional podcast in minutes with VoxFlow AI.

”

Instagram Visual Direction & AI Prompts

Brand Color Scheme: Dominant deep blue to vibrant purple gradient. High-contrast, professional tech aesthetic.

VoxFlow AI

Core Visual Elements: Clean, minimalistic typography. Immersive UI dashboard snippets. Modern podcast microphones. Futuristic, streamlined, and automation-focused style.

AI Image Prompt Reference:

"Modern AI dashboard, podcast microphone, blue purple gradient, futuristic UI, minimal, high-end tech."

Posting Schedule & Audience Rotation

Release Schedule (Prime Time WIB):

Content Creators: Focus on speed & editing efficiency.

Podcasters: Focus on audio quality & workflow automation.

SMEs: Focus on scalable, low-cost marketing tools.

Startups: Focus on thought leadership & branding.

Digital Marketers: Focus on content repurposing strategies.

Instagram KPI Targets

Minimum Performance Benchmarks (Per Post):

5,000

Unique Accounts Reach

100

Saves (Primary indicator of educational value)

8%

Minimum Engagement Rate

Primary Hashtag Ecosystem: #VoxFlowAI #PodcastAI #ArtificialIntelligence #ContentCreator #Podcast

TikTok 30-Day Content Roadmap (Weekly Breakdown)

Week 1 (Days 1-10) - TOFU: Awareness & Core Features

Days 1-5: Intro to VoxFlow, Podcast Problems, AI Script, AI Voice, Auto Subtitle.

Days 6-10: AI Music, AI Editing, One Click Publish, Content Repurposing, UMKM Use Case.

Week 2 (Days 11-20) - MOFU: Trust Building & Interaction

Days 11-15: Personal Branding, Business Podcast, 3 Podcast Prompts, Workflow, FAQ.

Days 16-20: User Testimonials, Manual vs AI, Behind the Scene, Founder Story, 7-Day Challenge.

Week 3 & 4 (Days 21-30) - BOFU: Conversion & Community

Days 21-25: 5 Creator Tools, Podcast Trends, Podcaster Mistakes, Free Template (Lead Magnet), Education Use Case.

Days 26-30: Voice Clone, AI Automation, Creator Community, Coming Soon, Final Call to Action.

SECTION 05

THE YOUTUBE PLAYBOOK

30-Day Authority Strategy: Long-form SEO, Retention & Conversion

YouTube Content Strategy Overview

Core Integration Triangle

- **Strategic Objective:** Position VoxFlow AI as the definitive market leader in AI-powered podcasting solutions.
- **Campaign Duration:** 30 Days of structured, high-retention content.
- **Platform Focus:** EXCLUSIVELY YouTube long-form video.
- **Asset Length:** 8–20 minutes per video.

YouTube Funnel Strategy (3 Phases)

[TOFU] Top of Funnel (Days 1-10): Awareness & Education

Goal: Capture broad search intent.

Core Topics: Brand introduction, AI podcast concepts, core feature demos, Manual vs. AI workflow.

[MOFU] Middle of Funnel (Days 11-20): Trust & Use Cases

Goal: Demonstrate tangible value & versatility.

Core Topics: SMB/Creator case studies, content repurposing, Behind the Scenes, prompt tutorials.

[BOFU] Bottom of Funnel (Days 21-30): Conversion & Authority

Goal: Drive software adoption.

Core Topics: 2026 industry trends, user success stories, software comparisons, Beta access.

Video Format & Production Standards

The Rules

- ✓ Duration Target: 8–20 minutes (scaling with technical depth).
 - Visual Production Stack:
 - ✓ Talking Head (A-Roll)
 - ✓ High-Resolution Dashboard Screen Recordings
 - ✓ Cinematic B-Roll (4K)
 - ✓ Minimalist Motion Graphics

The 30-Second Hook Pattern (Verbatim Formula):

In this video, I will show you how [Content Title] can be done faster using AI.

Standard Video Architecture

SEO, Thumbnail & Metadata Strategy

Title

SEO Keyword Mandate: Exact match placement in the Title and first 200 characters of the description.

Description

Target Keywords: Intro to VoxFlow AI, AI Podcast, VoxFlow AI.

Description Boilerplate: Learn [Content Title] with VoxFlow AI and turn your ideas into professional podcasts.

Thumbnail Design Code

Typography: ALL CAPS, Bold styling, ultra-high contrast.

Prompt: Modern YouTube thumbnail, blue-purple AI theme, professional microphone, bold futuristic text.

B-Roll Prompt Standard

Prompt: Futuristic AI podcast dashboard, clean user interface, blue purple gradient background, 4k.

YouTube KPI Targets & Upload Schedule

Minimum Performance Targets Per Video

Minimum Views

Minimum CTR

Min. Watch Time

Upload Schedule & Prime Time Strategy

Prime Time Strategy

- **Cadence:** 5 Videos per week (Monday to Friday).
- **Upload Time:** 19:00 WIB (7:00 PM Western Indonesia Time).
- **Strategic Rationale:** Hits the exact peak hours when professionals, creators, and business owners seek educational/upskilling content after work.
